### DETAILED ACTION

The amendment filed 12/10/04 and the remarks presented therewith have been carefully considered. However, they are not deemed to be fully persuasive.

#### ***Claim Rejections - 35 USC § 112***

1. Claim 23 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no clear antecedent basis for "the fixed, object contact surface" as recited in claim 23.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 6, 7, 12, 21, 22, and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Bram (U.S. Patent No. 2,780,951).

Bram shows a gripping tool comprising a support structure (1) having a fixed wall (2) at one end, a cinch strap (11), and a pivot arm (3). It is pointed out that Bram's tool is *capable* of gripping and loosening certain sized container lids.

***Allowable Subject Matter***

4. Claims 2, 5, 11, 14, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claim 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Specification***

6. The disclosure is objected to because of the following informalities:

The specification stills uses reference numeral "24" to identify both the trailing end of the rocker arm (see page 7, line 17) and a stop (see page 7, line 27) although corrected Figure 7 now shows "24" pointing to only the trailing end of the rocker arm.

Also, it appears that on page 11, line 6, immediately before the number "76", the word —arm—should be inserted.

Appropriate correction is required.

***Election/Restrictions***

7. This application contains claims 4, 8-10, and 15-18 drawn to an invention nonelected with traverse in the reply filed 9/16/04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
